

WHAT IS MAKE MARCH PURPLE?

Make March Purple is a grassroots effort dedicated to increase awareness about epilepsy worldwide. Each March the world turns purple in support of the 50 million people living with epilepsy.

How can your school Make March Purple?

For kids with epilepsy getting through the school day can be challenging. Not only can seizures impact a child's education but the side effects of anti-seizure medication can cause fatigue and changes in behavior. Here are some meaningful ways that your school could get involved in the campaign:

HOST AN EVENT

- Host a purple theme activity such as a morning tea.

EDUCATION

- Read our story books about epilepsy to students
- Have a student/family speak
- Learn seizure first aid

DRESS UP DAY

- Choose a purple dress up or crazy hair day to raise funds for kids living with epilepsy

MERCHANDISE

- Order PURPLE merchandise to sell

We would love to talk more about what could be possible. We always look for ways to collaborate. Let's talk about how we could activate our partnership.
